

KOOPERATIVE KOMMUNIKTION

Koprivnica, 29 June 2015

Press Information

Important product safety information regarding the products Vegeta 250g and Vegeta 500g with certain best-before dates on the Austrian, German and Slovakian market

The safety and quality of our products is of utmost importance to Podravka. During a routine product sampling of Vegeta 250g, potential salmonella traces were found in an isolated individual case.

As a precautionary measure, we have decided to launch a voluntary product safety action. The action applies to the following two products:

- Vegeta 250g with the best-before date 5 March 2017, 8 March 2017 and 9 March 2017 on German market, 8 March 2017 on Austrian market.
- Vegeta 500g with the best-before date 8 March 2017, 9 March 2017, 10 March 2017, 11 March 2017 and 12 March 2017 on the German market and 8 March 2017 on Slovakian market.

Customers are asked to refrain from consuming the product and to bring it back – in return for the purchase price – to their respective shop. An invoice is not necessary. The potentially affected shops are informed.

Other products, best-before dates or markets are not affected.

We apologize to our customers for any inconvenience caused.
